All photo frames standard and customized sizes are available

THP® photoframe mountboard Polystyrene Compressed Foam Board

- 1- Foam Board
- 2- Mounting Tissue
- 3- Your Poster
- 4- Laminate Film

White / Black Mounting Board

- Mounting board for all kinds of artwork such as photos, pictures, posters and what you want to preserve without any risk of discoloration.
- Time saving framing with no additional backing substrate, still best preservation and presentation.
- A replacement back panel board for all photo frame backing solutions
- All types of mounting/photo framing methods

Self-Adhesive Foam Board

- To save time and get quality mounting, all needed is self-adhesive board itself
- Peel the release paper and just position pictures or photo on the pressure sensitive adhesive liner by hand
- For large works of art, roller laminators can be used and vacuum process is used to make the lamination perfect.
